

DANISH MAHMOOD

Data Analyst | SQL, Python, Power BI, Excel

Hooghly, West Bengal, India | +91-8617248338 | danishmahmood34@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFILE SUMMARY

Data analyst transitioning from banking and customer operations into analytics, backed by hands-on project work in SQL, Python, and Power BI. Skilled in cleaning, modeling, and visualizing datasets to surface business insights, including sales trends, market growth, and performance drivers. Comfortable turning raw, messy data into clear, decision-ready dashboards and reports. Actively seeking an entry-level to junior Data Analyst / Business Analyst role.

SKILLS

Technical: SQL (Joins, CTEs, Window Functions, Aggregations, MySQL), Python (Pandas, Matplotlib, Seaborn), Power BI, DAX, Power Query, Power Pivot, Advanced Excel (VLOOKUP, Pivot Tables)

Analytics: Data Cleaning, Data Modeling, Data Visualization, ETL, KPI Reporting, Dashboard Automation, Business Reporting, Trend Analysis, Data Validation

Tools: Google Sheets, Google Forms, Microsoft Office, MySQL

Soft Skills: Problem-Solving, Analytical Thinking, Communication, Teamwork

PROJECTS

Blinkit Sales Analysis | *Power BI* | [Link](#)

June 2025

- Analyzed \$1.20M in retail sales across 8,523 items, evaluating product categories, outlet types, locations, outlet sizes, and product attributes using Power BI.
- Built an interactive dashboard tracking \$1.20M total sales, \$141 average sales, 8,523 items, and 3.9 average rating through dynamic KPI and category-level analysis.

AtliQ Motors EV Market Analysis | *MySQL* | [Link](#)

August 2025

- Analyzed FY2022–FY2024 EV registration data across states, manufacturers, and vehicle segments to identify market growth and competitive trends.
- Used JOINS, CTEs, Window Functions, RANK(), LAG(), and CAGR to calculate market penetration, growth rates, manufacturer performance, and regional trends.
- Found 2-wheeler EV sales increased from 252,573 to 932,692, while 4-wheeler sales grew from 18,577 to 86,901, highlighting strong EV market expansion.

IMDb Movie Analysis | *Python, Pandas, Matplotlib, Seaborn* | [Link](#)

October 2025

- Performed exploratory analysis on 1,000 IMDb movies using Python, Pandas, NumPy, Matplotlib, and Seaborn to evaluate movie performance.
- Cleaned and transformed raw data by handling missing values, inconsistent formats, and data-quality issues before analysis.
- Analyzed relationships across ratings, revenue, genres, runtime, audience votes, and yearly trends to identify patterns influencing movie performance.

WORK EXPERIENCE

State Bank of India — Business Correspondent Intern

Jan 2022 – Dec 2022

- Tracked branch performance data and supported reporting activities; assisted in monitoring non-performing assets and recovery metrics.
- Maintained customer data records and service metrics for operational review; supported digital banking adoption through customer data tracking.

Amazon — Virtual Customer Service

May 2023 – Nov 2023

- Handled customer queries and resolutions via email and chat, maintaining a high customer satisfaction rate.
- Troubleshooted issues related to orders, refunds, and account management.
- Tracked performance metrics including response time, accuracy, and customer feedback.

EDUCATION

University of Kalyani — Master of Commerce
